## **Tahoe Queen Incident, Lake Tahoe, El Dorado County (New/Final)**

Per Cal OES Ports and Harbors, at approximately 1530 hours on 8/4/2014, the vessel Tahoe Queen ran aground hard on a sandbar at Lake Tahoe with 300 passengers and crew on board. The United States Coast Guard (USCG) rescued all passengers and crew with no injuries and no fatalities. Currently the Environmental Protection Agency (EPA) is working with USCG to perform salvage operations on the vessel.

There are 800 gallons of diesel onboard. There is no damage to tanks and no leakage at all. The current operation plan is to begin by removing diesel and then refloating the vessel. The vessel will then be checked further for damage. The incident is considered a salvage operation and is non-response and non-recovery. There have been no requests for State assistance and no unmet needs by the County.

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

A weak high pressure building over the North Coast will bring increased temperatures and drier conditions to the interior the next few days. Remnant moisture and instability will generate a slight risk of thunderstorms for parts of the interior each afternoon and evening from today through Saturday.

#### **San Francisco Weather:**

Very light showers will move south through the San Francisco and Monterey Bay Areas this morning. Seasonable weather and near normal temperatures return by Thursday and continue into the weekend.

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

#### **Sacramento Weather:**

Unsettled weather continues today before a weak low moves slowly east starting Thursday. Focus of shower and thunderstorm activity shifts into the northern Sierra and Coast Range for the next several days. Areas of cloudiness will continue to moderate temperatures today, but less cloud cover the next few days will allow for temperatures to return to near-normal the remainder of the week.

#### **Hanford Weather:**

Low pressure over northern California will push slowly inland later this week keeping an onshore flow over the area. Temperatures will be fairly close to seasonal normals for the remainder of the week. There will be a slight chance of thunderstorms over the southern Sierra Nevada and in the hills along the west side of the San Joaquin Valley this afternoon. Otherwise, expect near normal temperatures and a slight chance of thunderstorms along the Sierra Crest for the remainder of this week.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

A weak upper level low pressure system will bring a slight chance of showers and thunderstorms to interior San Luis Obispo and Santa Barbara counties this afternoon and evening. A lingering upper level trough of low pressure will deepen the marine layer through the weekend with temperatures near normal for the rest of the Los Angeles area.

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

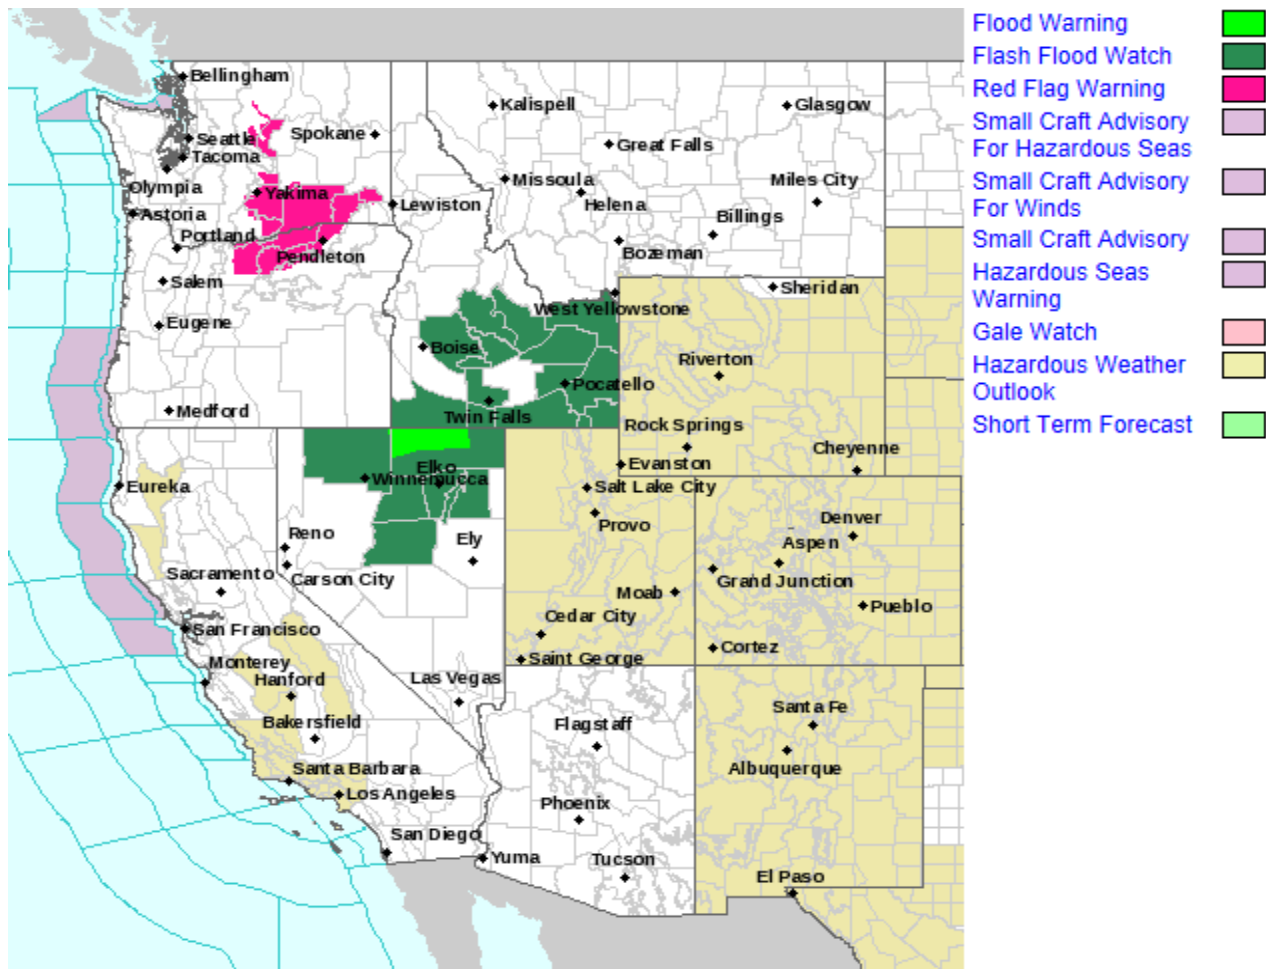

A weak trough of low pressure over Southwestern California will bring a dry, seasonal weather pattern through Saturday with night. High pressure to the east will strengthen and expand westward for Saturday into early next week bringing warming to near average temperatures and a shallower marine layer. Monsoonal moisture may return early next week for a chance of afternoon and early evening thunderstorms for the mountains and deserts Monday and Tuesday.

#### **Southeast California Weather:**

The combination of deep southwesterly flow and unusually dry air over Southeastern California will keep thunderstorm activity trapped well to the southeast through at least Friday. Despite the drier conditions, temperatures will remain near average for the rest of the week. Moisture return and increasing storm chances will begin late in the weekend with widespread deeper moisture and much better rainfall opportunities spreading into the entire area by early next week.

# FIRE ACTIVITY

## Oregon Gulch, Vegetation Fire, Siskiyou County Cont. (Update)

### Utilities

- The fire is threatening 60 kV, 115 kV, and 230 kV power lines.
- [Transmission line 59 \(230 kV\) is out of service, however, there are no customer outages](#)
- According to CUEA representative, there is a PG&E substation that is threatened. Currently firefighters have a line around the substation which they feel will minimize the threat. PG&E technicians have checked the natural gas lines and they are deemed safe. As a contingency they have a low-boy generator that is located in Shasta County.
- PG&E Emergency Management is actively monitoring the situation throughout all of Northern California.
- Klamath River Hydro Project: Cal ISO tested the system and confirmed it had not lost capacity, and is stable. The lines are currently parallel to the fire, unaffected and operating normally. PG&E grid contingency plan is an alternate routing capability as is Cal ISO's contingency plan. If the system were to go off-line, there would be no impact to the grid. It is a small satellite generating station of 2.75 megawatts, which is tied to an auxiliary 60 KV system used as backup generation only to lower costs. It is a low-voltage, private plant under contract with PG&E.

## **Situational Summary**

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- Current Reservoir Levels continue to decline. Levels as of August 3<sup>rd</sup>: Don Pedro 44%; Exchequer 20%; Folsom Lake 41%; Lake Oroville 35%; Millerton Lake 52%; New Melones 26%; Pine Flat 13%; San Luis 22%; Lake Shasta 34%; Trinity Lake 35%; Pyramid Lake 93%; and Castaic Lake 47%.

- Emergency Food Aid, Rental and Utility Assistance: The California Department of Social Services has provided to date over 172,000 boxes of food to community food banks in drought-impacted counties. Approximately 117,500 boxes of food have been picked up by 61,906 households. By August 8, an additional 15,100 will be delivered to six counties. Local food banks continue to target this food aid to residents most impacted by the drought.

- The non-profit group La Cooperativa continues to distribute the \$10 million state-funded emergency rental assistance to impacted families and individuals across counties most impacted by the drought. As of July 30, the Department of Housing and Community Development (HCD) has reported that a total of \$1,716,748 is committed; and \$1,060,932 in funds has been issued to 923 applicants in 18 counties.

### **Situational Summary**

- State Board Mandatory Conservation Regulations Now in Effect: The state's first-ever emergency regulations mandating urban water conservation became effective will be in effect until April 25, 2015.

- W21: Water in the 21st Century Legislation Introduced: California Sens. Barbara Boxer and Dianne Feinstein along with their House colleagues Reps. Grace Napolitano (D-CA-32) and Peter DeFazio (D-OR) introduced legislation to promote water conservation and recycling on Thursday, July 31. The identical House and Senate bills, entitled "W21: Water in the 21st Century," expand rebates and grants for water conservation and efficiency; support local investments in water recycling and improved groundwater management and storage; invest in research into water-saving technologies and desalination; and establish an open water data system.

- Work Continues on Federal Drought Relief Legislation: Members of Congress continue to work on merging competing pieces of drought relief legislation passed in the House and Senate earlier this year. Starting next week, both houses of Congress will begin a five-week recess, so no formal bill will be introduced until September at the earliest.
